

# THE Daily Bulletin

Pledged to neither Sect nor Party,  
But established for the benefit of all.

MONDAY, OCT. 28, 1889.

Senator Frye of Maine, in an interview with a San Francisco Chronicle reporter, said: "It is not the policy of the United States to annex outlying territory; it never has been and never will be. But the United States will allow no other country on the face of the earth to take possession of the Sandwich Islands. Both the Sandwich Islands and the Samoan Islands, I believe, are absolutely necessary for us, not especially to hold as our territory or as a part of our great republic, but to guarantee their absolute independence from any other foreign power."

## THE GOLDEN EGG.

EDITOR BULLETIN:—It would appear by the writings of certain people that a large majority of the planters will not raise a finger to stop the overrunning of the kingdom with Chinese, but on the contrary they seem determined to override all opposition, and have the country to their dear selves, regardless of the rights or wrongs of natives, mechanics, or any other class of men. At times when being pushed a little for their selfish and ungodly methods of cramming the country with Chinese pirates, they will invariably warble with a whine that old song of theirs, "the goose that lays the golden egg." But the people have at last awakened to the fact that the "golden egg" business has been circling around in altogether too small a space for the good of themselves or the country. The anti-Chinese party are at the front with a fair and manly platform to the planters on the Chinese question, but instead of the planters meeting them half way as square dealing men would, they are throwing every obstacle possible, or to be thought of, against doing justice to the people. If the planters persist in their greedy ways and keep that cloak of selfishness buttoned to the throat until the eleventh hour, and I mistake not the tone and temper of the people, they will elect men to the next Legislature that will give that golden goose such a wringing in the neck that its "honk" will be heard from Queen street to the farthest end of Hawaii, and a just verdict from an outraged people will be—"served them right."

Wailuku, Oct. 23.

## LET US HAVE PATIENCE.

EDITOR BULLETIN:—These are trying times for the Hawaiian people. The whole fabric of our social system is being racked and strained. In view of recent occurrences, there is a disposition on the part of many to bear down too hard on the Hawaiians. But whatever their deficiencies may be, when put to the test of capability for the management of the complicated political and social problems of Christendom in this nineteenth century, let us remember that they have many excellent and noble qualities of our common humanity. To cut them down and keep them down is the very barbarism of that rule of the strong hand and the iron heel, from which we have claimed the glory of delivering them. Be patient; their failings are proofs of childlike lack of comprehension and complacency rather than any positive ill will or revengeful recklessness. They are learning as other peoples have had to learn, by habits of self-restraint, the principles of self-government.

There is much wild talk among our foreign residents because of difficulties in the management of various social questions. Capital is not the opponent, but the outgrowth of labor. Our capitalists, our captains of industry, to whose enterprise the islands owe their commercial importance are men who have legitimately achieved success. Most of us have come here from other lands hoping to better ourselves. In the eager pursuit of wealth, some men may seem to regard the power of money as something akin to divine glory; but the many public benefactions of our wealthy men show that they feel strongly their kinship with the great boiling struggling mass of humanity. Let us have sympathy with those men, whose increasing wealth brings increasing burdens and increasing perplexities, not release from these cares and toils of this earthly life. If instances of seeming neglect and oppression in any class may be cited, there are more instances of sympathy and helpfulness, which it will do us all good to remember and hold in honor. Give the Chinaman a chance, but don't give him the advantage. No one set can claim all the virtues for themselves, and in the vexation as in the hardships of life, we have more need of patience than any other Christian grace.

Why may not the coming elections be an opportunity for kindly feeling and prudent forbearance? Let us have calm discussion of principles, measures and candidates, not vituperation and denunciation. Let us have no compromises, nothing for appearance' sake, no shams. Let us criticize and condemn as severely as we may; what we believe to be

wrong in the policy and acts of the present administration. I believe in just criticism, not chronic fault-finding. Who of us can deny that the present tone and drift of governmental policy is in the line of purity, honesty, and public welfare, beyond any preceding royal rule? Let us seek for reform within these lines, rather than an overturn of our civil service, with the dangers of a return to corruption, caprice and calamity. Let us have soldierly discipline, not social boycotting. Give others, who differ from us, credit for honesty of purpose, and some knowledge of the situation. Let us forbear bickering and wrangling. Let us all have one aim, like the famous compact, on the Mayflower, of the Pilgrim Fathers, beginning, "In the name of God, Amen. We do hereby pledge ourselves to the enactment of equal laws for the whole people." Let that be our platform.

C. M. Hobb.

## PLANTERS IN COUNCIL.

Annual Meeting of the Planters' Labor and Supply Company.

The Planters' Labor and Supply Company met in annual session this morning at the room of the Chamber of Commerce. There was a large attendance, the following being present: Hon. H. P. Baldwin, President; Hon. W. O. Smith, Secretary; Hon. C. R. Bishop, H. M. Whitney, A. Young, W. R. Castle, J. B. Atherton, and A. S. Wilcox; Messrs. W. W. Hall, P. C. Jones, F. A. Schaefer, C. M. Cooke, R. Halstead, R. A. Macle, Jr., H. F. Glade, F. M. Swanzy, E. M. Walsh, W. Blaisdell, C. F. Horner, T. S. McKay, J. N. S. Williams, H. Morrison, H. Laws and H. Faye. A new system of constituting the convention has been adopted, the representation by shares being substituted with that by membership and members having the privilege of sending substitutes.

## ANNUAL REPORT.

After reading the minutes of last meeting, the Secretary read his annual report. It reported meetings from time to time of the board of trustees. Letters from Mr. F. M. Ormsby had been received regarding the subject of obtaining negro laborers from the Southern States. The proposition proved too vague and uncertain to be entertained. The subject of Portuguese immigration has received much attention. Communications were received from Mr. A. Marques from Lisbon, in which he made various suggestions in regard to procuring Portuguese laborers, and propositions that he be engaged to promote the immigration. The end of this was that Mr. Marques was referred to Mr. E. Muller (of H. Hackfeld & Co.), who had been appointed agent of the Board of Immigration in the matter of Portuguese immigration, and who was then in Europe. The trustees find there is a demand for Portuguese immigration and it is hoped it may be renewed. The Japanese introduced during the year have partially met the demand for labor, but it is evident that more laborers will have to be obtained during the coming year. Wages are high and new enterprises will be a drain upon the present limited supply.

The problem of how to maintain an adequate supply of laborers, at rates of wages which will permit agricultural enterprises to be carried on profitably, and at the same time having due regard for the population and social interests of the country, is one surrounded with great difficulties. No one class of people is alone interested in this question, but it is of importance to all.

## CULTIVATION.

The secretary read the report of the committee on cultivation (J. N. Wright, Chas. Koelling, O. Unna), which was ordered to be printed. A practical discussion then took place on the subject, participated in by Messrs. Macle, Blaisdell, Cooke, Young, Baldwin, Whitney, Morrison, Halstead, Wilcox, Jones, Atherton. Many valuable points were brought out regarding methods, fertilizers, soils, etc.

## MINUTES OF TRUSTEES.

The Secretary, at the suggestion of the chair, read the minutes of the meetings of the trustees, referred to in the annual report. Most of the proceedings of the board related to the question of labor. After the reading, the President gave some explanations of matters in the minutes. He had learned that the agents to get fresh Portuguese labor had failed in their endeavors. The Board of Immigration, however, he understood was now prepared to renew measures for procuring more Portuguese.

Mr. Morrison seemed to be glad the negro proposal had come to naught, saying they would be "no good."

Mr. Macle suggested that the trustees should publish their proceedings regularly in the Planters' Monthly. He considered it would tend to maintain the interest of planters in the company. When the organization was started its meetings were crowded, scarcely a planter in the kingdom being absent. Now he doubted if there were six planters in this meeting.

Mr. Castle moved and it was carried that the proceedings of trustees' meetings be published, with the discretion of eliminating matters not deemed advisable for publication. At 12 o'clock the convention took recess till 1:30.

Auction Sales by Lewis J. Levey.
